Catawba County

Rezoning Amendment application

We request rezoning 4723 mountain creek avenue from PD to HC in order to be compatible with the immediately adjacent properties to the north and west, and to be consistent with the infrastructure that is in place for a facility of this size in a business park of this nature. Rezoning to HC will also expand the operational options for tenants, which will increase business in the county, raise lease rates, and lead to increased property values.

Thank you
